### **RECOMMENDATIONS:**

- In the case of painted substrates self-adhesive media must only be applied onto the undamaged original paintwork. If the paint is not the original paintwork and/or if it is damaged, the application and the removal are at the installer's risk.

### **SHELF LIFE:**

- 1 year if unopened in its original packing at a temperature between 15°C and 25°C and a relative humidity between 30% and 70% (before application).

#### **Note:**

Because of the great variety of substrates and possible application methods the installer must examine the suitability of the media for each application.
